Step 1.1: Setup Hosted Checkout	2
Step 1.2: Configure Gas Account	4
Step 1.3: Create API Key & Setup Webhook.....	5
Step 2: Install Bleumi Pay Extension In Your Magento 2 Store	6
Step 3: Configure Bleumi Pay Extension In Your Magento 2 Store	6
Appendix	8
Order Status.....	8
Data Customization.....	8

Step 1: Configure Your Bleumi Pay Account

Step 1.1: Setup Hosted Checkout

- 1) Log in to [Bleumi Pay Dashboard](#) and navigate to **Sandbox (or) Production > Hosted Checkout**.
- 2) Under **Branding**, customize the Brand Name and Brand Logo to be displayed in the Bleumi Pay Hosted Checkout of your integration.
- 3) Under **Tokens**, click **Add Token** to configure the tokens that you wish to receive as payments from your integration. You can either:
 - a. **Add a custom token**
 - b. **Select a predefined token** and provide a Token Settlement Address (Your Wallet Address to receive payments).

The screenshot shows the Bleumi Pay dashboard interface. On the left is a sidebar with navigation links: Sandbox, Production, Setup Guide, API Documentation, and Support. The main content area is titled 'Production > Hosted Checkout'. It contains three sections: 'Branding' with 'Brand Name' and 'Brand Logo' fields, 'Tokens' with an 'Add Token' button, and 'Advanced Settings' with a toggle for 'Ask Wallet Address for Refund'. Red boxes highlight the 'Brand Name' field, the 'Brand Logo' upload area, and the 'Add Token' button.

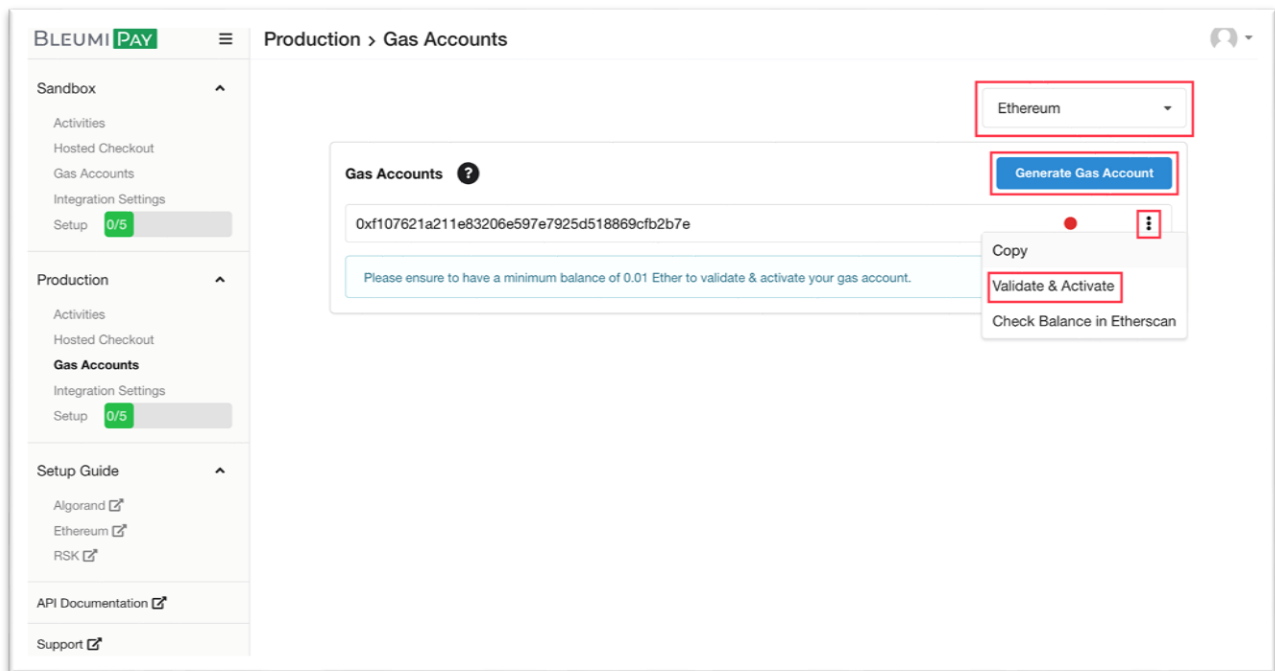

Add a custom token

Step 1.2: Configure Gas Account

Gas Accounts are used to fund Network Fee for your payment operations (Settle/Refund) on the Network.

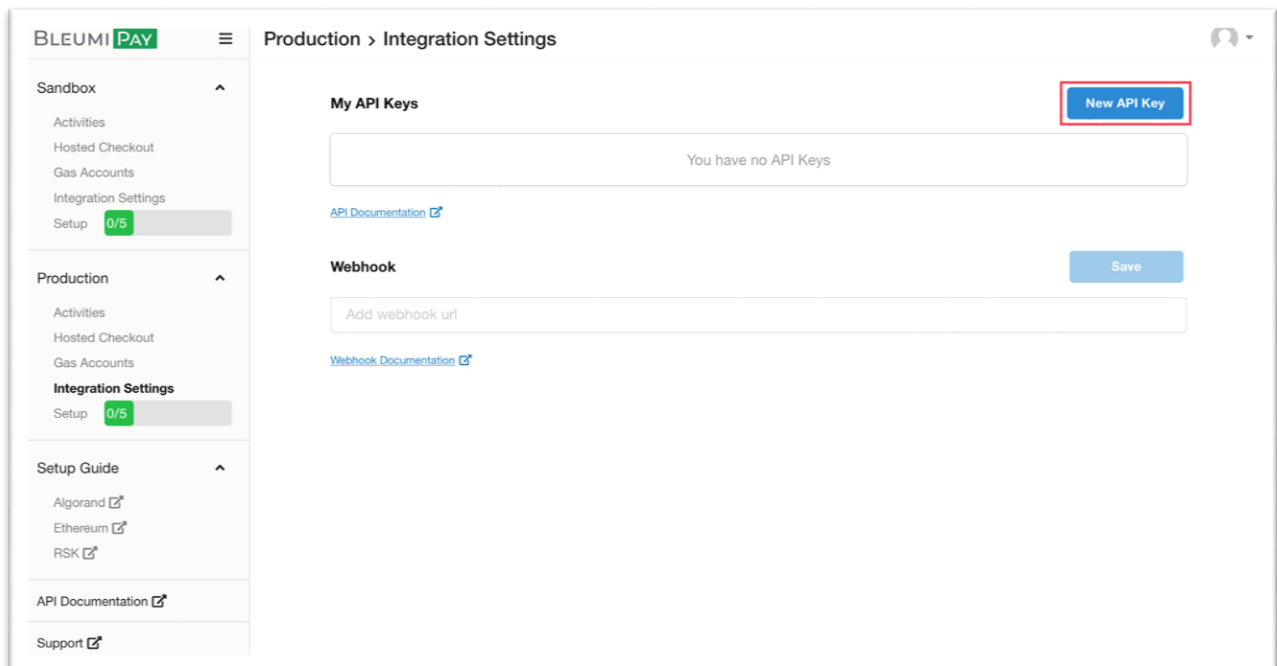

- 1) Log in to [Bleumi Pay Dashboard](#) and navigate to **Sandbox (or) Production > Gas Accounts**.
- 2) **Select the Network** for which the Gas Account needs to be setup.
- 3) Click **Generate Gas Account**.
- 4) **Fund Gas** to the Gas Account and click on **Validate & Activate** to activate the Gas Account.

Step 1.3: Create API Key & Setup Webhook

Log in to [Bleumi Pay Dashboard](#) and navigate to **Sandbox (or) Production > Integration Settings** and click **New API Key** to create an API Key.

Note: Production network access requires a verified account. To enable production access, contact support@bleumi.com.

Step 2: Install Bleumi Pay Extension In Your Magento 2 Store

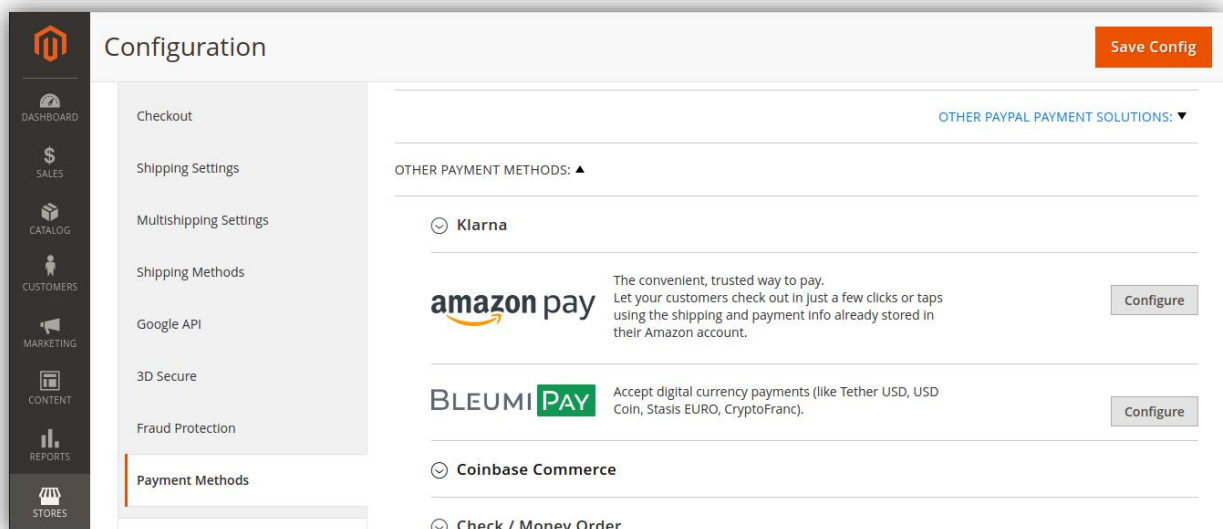

Run the following commands from the root folder of your Magento 2 installation.

```
$ composer require bleumi/bleumi-pay-magento2
$ bin/magento setup:db-declaration:generate-whitelist --module-name=Bleumi_BleumiPay (If your
Magento 2 installation >= 2.3.x)
$ bin/magento setup:upgrade
$ bin/magento cache:clean
$ bin/magento cache:flush
$ bin/magento setup:di:compile
$ bin/magento setup:static-content:deploy -f
```

Step 3: Configure Bleumi Pay Extension In Your Magento 2 Store

Enable Bleumi Pay as a Payment method on your Magento 2 store:

- 1) Log in to Magento 2 Admin Panel.
- 2) Navigate to **Stores > Configuration > Sales > Payment Methods** and click on "**Configure**" button next to the Bleumi Pay Payment method.
- 3) Open Payment settings select **YES** in the "**Enable Bleumi Pay**" dropdown to enable Bleumi Pay Module.
- 4) Copy and paste your Bleumi Pay API Key from **Bleumi Pay Dashboard > Sandbox (or) Production > Integration Settings**.
- 5) Click "**Save Config**" button at the top of the page.
